

SOLID WALL INSULATION

Insulating solid wall homes has never been easier or more cost effective. Sempatap Thermal is as easy as wallpaper to apply, providing warmer walls immediately and it can be installed without having to vacate the property.

Sempatap Thermal has been approved by the Energy Saving Trust as an energy saving product and is also an EST “Recommended product” for insulating solid wall properties.

It can be decorated with virtually anything emulsion, wallpaper, even tiled and has a life expectancy of 30 years. Sempatap Thermal can be used on all types of solid wall property including brick, stone, concrete as well as homes with mansard roofs and dormer ceilings. Sempatap Thermal is the economical solution for insulating hard to heat homes which also helps lower heating bills and reduce carbon emissions.
